SUMMARY

Versatile Full-Stack & Mobile App Developer with expertise in the MERN stack, Next.js, and React Native. Hands-on experience in building scalable web applications and cross-platform mobile apps with a focus on high performance and seamless UI/UX. Proven ability to develop complex CRM modules at NITS Global and deliver production-ready projects. Passionate about leveraging modern JavaScript frameworks to build end-to-end solutions for web and mobile platforms

EXPERIENCE

Full-Stack Developer (React Developer)

NITS Global **05/2025 - Present**

- Working on CRM project modules using React.js.
- Successfully integrated complex **RESTful APIs** to ensure seamless data synchronization between the frontend and backend.
- Improved application loading speed by implementing code-splitting, lazy loading, and developing reusable UI components.
- Integrated **Twilio API** to automate SMS notifications and **Mailjet** for robust transactional email delivery systems.
- Collaborated with backend developers and UI/UX designers to translate client requirements into high-quality technical solutions.

- **Cross-Platform Development:** Developed a high-performance, full-stack mobile application using **React Native**, **Node.js**, and **Express.js**
- **State Management:** Leveraged **Redux** for robust global state management, efficiently handling complex cart operations and persistent user sessions.
- **Secure Payment Integration:** Integrated **Razorpay Payment Gateway** (Test Mode) to facilitate seamless and secure digital transactions within the app.
- **Advanced Authentication (RBAC):** Engineered a Role-Based Access Control system, enabling **Admins** to manage inventory (CRUD) and **Users** to place and track orders.
- **Scalable Backend:** Designed and deployed scalable **RESTful APIs** using Express.js, with **MongoDB** for optimized data storage and retrieval.
- **Intuitive UI/UX:** Built a responsive interface featuring dynamic category-based filtering and an integrated delivery address management system.

PROJECT

Vitta-Lekha | Full-Stack Loan Management System (Next.js)

ss-finance-fawn.vercel.app • February 2026 - February 2026

- **Developed a Full-Stack Financial SaaS** using **Next.js 14/15**, leveraging **App Router** and **Server-side Rendering (SSR)** for optimized performance and SEO-friendly architecture.
- **Built Scalable API Routes:** Engineered a secure backend infrastructure using **Next.js API Routes (Serverless Functions)** to handle borrower registration, loan disbursement, and automated ledger updates.
- **Dynamic Financial Logic:** Developed a specialized engine to calculate real-time interest (APR) and late payment fines, visualized through interactive progress bars and balance tracking.
- **Cloud Identity Management:** Integrated **Cloudinary SDK** for secure document handling, allowing admin to upload and retrieve KYC (Aadhaar) images with optimized loading.
- **Database Synchronization:** Architected a **MongoDB** database layer with **Mongoose**, implementing atomic transactions to sync product stock and borrower collections accurately.

FreshlyNow – Full-Stack Grocery Delivery Application

expo.dev/accounts/100rabh_07/projects/freshlynow/builds/f7f77458-134e-4ad8-b617-5d7ab0aa7b72

- November 2025 - February 2026
- **Cross-Platform Development:** Developed a high-performance, full-stack mobile application using **React Native**, **Node.js**, and **Express.js**
- **State Management:** Leveraged **Redux** for robust global state management, efficiently handling complex cart operations and persistent user sessions.
- **Secure Payment Integration:** Integrated **Razorpay Payment Gateway** (Test Mode) to facilitate seamless and secure digital transactions within the app.
- **Advanced Authentication (RBAC):** Engineered a Role-Based Access Control system, enabling **Admins** to manage inventory (CRUD) and **Users** to place and track orders.
- **Scalable Backend:** Designed and deployed scalable **RESTful APIs** using Express.js, with **MongoDB** for optimized data storage and retrieval.
- **Intuitive UI/UX:** Built a responsive interface featuring dynamic category-based filtering and an integrated delivery address management system.

Bookstore Web Application

bookstore-frontend-green.vercel.app/ • June 2025 - July 2025

- **Full-Stack Development:** Developed a comprehensive e-commerce platform for books using the **MERN stack** (MongoDB, Express, React, Node.js).
- **Secure Authentication:** Implemented **JWT (JSON Web Token)** based authentication and authorization to ensure secure user sessions.
- **Role-Based Access (RBAC):** Engineered a dual-interface system with **Admin** (Full CRUD) and **User** (Browse/Read) access levels.
- **Responsive UI/UX:** Built a modern, mobile-first frontend using **React.js** and **Tailwind CSS** for a seamless experience across all devices.
- **Database & API Design:** Designed and integrated **RESTful APIs** with **MongoDB** for efficient data storage, retrieval, and management.

EDUCATION

B.Tech/B.E. (Computer Science)
JS University, Shikohabad • Uttar Pradesh • 2025 • 7.72

Diploma in Electronics Engineering
Prasad Polytechnic, Jaunpur • 2020 • 74.4 %

Class XII
Minor in PMC • RBSAIC Kodahara, Azamgarh • Uttar Pradesh • 2018 • 64.4 %

Class X
Minor in PMC • RBSAIC Kodahara, Azamgarh • Uttar Pradesh • 2016 • 76.5%

SKILLS

React.js, Next.js, React Native, , HTML, CSS, JavaScript, Tailwind CSS, Bootstrap

Node.js, Express.js

MongoDB, MySQL

REST APIs, OOP, Git, Deployment (Vercel), Responsive Design
